Company Knowledge Assistant

What if your team could just ask your documents?

A private AI assistant that answers questions from your own policies, contracts, manuals and records, with sources shown for every answer.

WHAT IS INCLUDED

- **Knowledge Audit**
  We inventory your documents, formats and access rules to decide what the assistant should know.
- **Ingestion Pipeline**
  Automated cleaning, chunking and indexing of PDFs, Word files, sheets and web pages.
- **Retrieval and Answering**
  A retrieval-augmented assistant that cites the exact document behind each answer.
- **Access Control**
  Role-based permissions so people only see what they are cleared to see.
- **Quality Evaluation**
  A test set of real questions scored for accuracy before launch.
- **Team Handover**
  Admin training and documentation so your team can add and update content.

WHO THIS IS FOR

- Firms with large policy or compliance libraries
- Support teams answering the same questions daily
- Law, finance and consulting practices
- Companies onboarding staff at scale
- Operations teams hunting through shared drives
