Team AI Training Workshop

Is your team using AI well, or just trying it?

A hands-on workshop that gives your people practical AI skills for their own roles, with ready-to-use prompts and workflows.

WHAT IS INCLUDED

- **Pre-Workshop Briefing**
  We learn your roles, tools and goals so every example reflects your real work.
- **AI Foundations**
  What AI can and cannot do, in plain language, with live demonstrations.
- **Role-Based Exercises**
  Practical sessions for sales, finance, operations, support and management.
- **Prompting and Workflows**
  Repeatable methods for writing, analysis, research and reporting.
- **Safe and Responsible Use**
  Data privacy, accuracy checks and company policy for AI tools.
- **Resource Pack**
  Prompt library, cheat sheets and a 30-day practice plan for every attendee.

WHO THIS IS FOR

- Teams starting their AI adoption journey
- Leaders who want consistent AI habits across staff
- Companies rolling out ChatGPT or Claude licences
- Training and HR teams planning upskilling
- Organisations with an AI policy to bring to life
